

MOUNTING INSTRUCTIONS

FBS Panels

The entire process is very simple, requires no special tools, and can be done on your own in just a moment. Just follow these 4 steps:

Step 1

Remove the ceiling tile that will be replaced, along with the adjacent tile in the direction of the connection.

Step 2

Prepare the FBS panel for installation – simply remove all packaging.

Step 3

Place the diffuser into the open space, it is designed to fit precisely into the grid.

Step 4

Connect the air supply and make sure the diffuser is properly seated.
